Motivation: Female employment in Jordan

1. Fourth lowest in the world (14%)
2. Conservative gender norms: female work hurts husbands and children
3. Employers other-regarding towards women, husbands, and children

This Study: When evaluating female applicants, do employers in Jordan consider the welfare of the applicants' husbands and children?

1. **Motivation:** Female employment in Jordan:

1. Female labor force participation
2. Gender norms
3. Employers' other-regarding preferences

1. **Motivation:** Female employment in Jordan:
 1. Female labor force participation
 2. Gender norms
 3. Employers' other-regarding preferences

2. **Research Design:** Experiment with Jordanian employers in which we exogenously vary concerns about the welfare of female applicants' families:
 1. Full-time job
 2. Part-time job: morning or afternoon

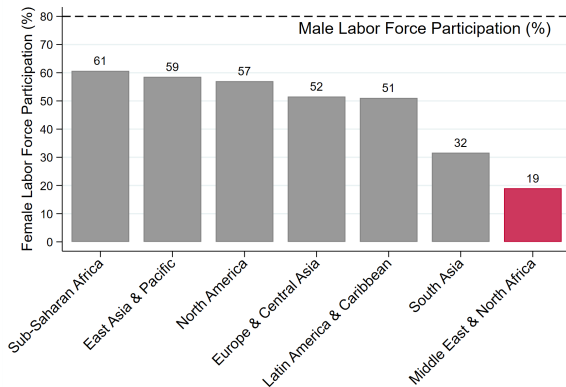

1. **Motivation:** Female employment in Jordan

1. Female labor force participation
2. Gender norms
3. Employers' other-regarding preferences

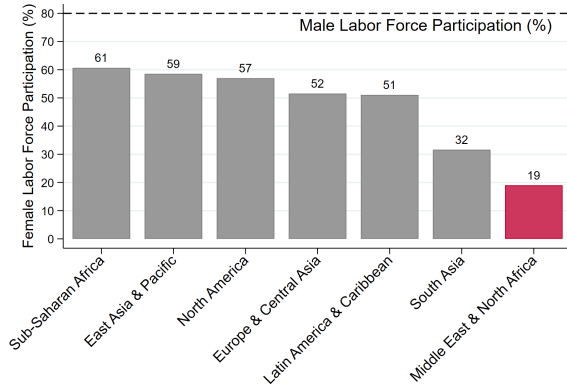

2. Research Design: Experiment with Jordanian employers in which we exogenously vary concerns about the welfare of female applicants' families:

1. Full-time job
2. Part-time job: morning or afternoon

3. 20 OTHER-REGARDING EMPLOYERS: WOMEN

- ▶ *It is the responsibility of the employer to maintain her respect, safety, and security. (...) A woman should be viewed with the respect due to a mother and a sister. This will give more importance to safeguarding her dignity.*

3. 20 OTHER-REGARDING EMPLOYERS: WOMEN

- ▶ *It is the responsibility of the employer to maintain her respect, safety, and security. (...) A woman should be viewed with the respect due to a mother and a sister. This will give more importance to safeguarding her dignity.*
- ▶ *The risk of putting women in an unpleasant/dangerous situation is an important reason for not hiring women. (...) We must ensure she gets home safely. If the employer is a good person, this will be on his mind.*

3. 20 OTHER-REGARDING EMPLOYERS: WOMEN

- ▶ *It is the responsibility of the employer to maintain her respect, safety, and security. (...) A woman should be viewed with the respect due to a mother and a sister. This will give more importance to safeguarding her dignity.*
- ▶ *The risk of putting women in an unpleasant/dangerous situation is an important reason for not hiring women. (...) We must ensure she gets home safely. If the employer is a good person, this will be on his mind.*
- ▶ *If I hire a woman, (...) there is a possibility of her facing various dangers. For this reason, I will not hire a woman.*

3. 20 OTHER-REGARDING EMPLOYERS: HUSBANDS

- ▶ *Often, when a woman submits her CV, the employer asks (...) whether her husband wants her to work.*

3. 20 OTHER-REGARDING EMPLOYERS: HUSBANDS

- ▶ *Often, when a woman submits her CV, the employer asks (...) whether her husband wants her to work.*
- ▶ *After marriage, a woman's responsibility lies with her husband. He's her guardian. If the husband's permission is not granted, I will not hire that woman.*

3. 20 OTHER-REGARDING EMPLOYERS: HUSBANDS

- ▶ *Often, when a woman submits her CV, the employer asks (...) whether her husband wants her to work.*
- ▶ *After marriage, a woman's responsibility lies with her husband. He's her guardian. If the husband's permission is not granted, I will not hire that woman.*
- ▶ *I would not hire the wife for a higher position in my organization than the husband, people will say the husband cannot take care of his wife.*

3. 20 OTHER-REGARDING EMPLOYERS: HUSBANDS

- ▶ *Often, when a woman submits her CV, the employer asks (...) whether her husband wants her to work.*
- ▶ *After marriage, a woman's responsibility lies with her husband. He's her guardian. If the husband's permission is not granted, I will not hire that woman.*
- ▶ *I would not hire the wife for a higher position in my organization than the husband, people will say the husband cannot take care of his wife.*
- ▶ *If I feel that her husband is making a mistake in letting her work and he can take care of his family, then I won't give her a job. I will not.*

3. 20 OTHER-REGARDING EMPLOYERS: CHILDREN

- ▶ *If women work, their children suffer. They don't get proper care, their education is neglected, and they don't receive their parents' love. This is important for me.*

3. 20 OTHER-REGARDING EMPLOYERS: CHILDREN

- ▶ *If women work, their children suffer. They don't get proper care, their education is neglected, and they don't receive their parents' love. This is important for me.*
- ▶ *It is not right for women to work. Women are better off staying at home and spending time with their children. This is the natural order.*

3. 20 OTHER-REGARDING EMPLOYERS: CHILDREN

- ▶ *If women work, their children suffer. They don't get proper care, their education is neglected, and they don't receive their parents' love. This is important for me.*
- ▶ *It is not right for women to work. Women are better off staying at home and spending time with their children. This is the natural order.*
- ▶ *I would not hire a pregnant woman or a mother with young children, because I believe her husband is making a mistake allowing her to work.*

THIS PAPER: RESEARCH QUESTION

► **Recap:** Female employment in Jordan

1. Fourth lowest in the world (14%)
2. Female work perceived to harm husbands and children
3. Employers show concern for the welfare of husbands and children

THIS PAPER: RESEARCH QUESTION

- ▶ **Recap:** Female employment in Jordan
 1. Fourth lowest in the world (14%)
 2. Female work perceived to harm husbands and children
 3. Employers show concern for the welfare of husbands and children

- ▶ **Research question:** Do employers hire fewer women when they believe employing women harms husbands or children?

1. Motivation: Female employment in Jordan

1. Low female labor force participation
2. Female labor perceived to harm husbands and children
3. Employers concerned for welfare of husbands and children

2. **Research Design:** Experiment with Jordanian employers in which we exogenously vary concerns about the welfare of female applicants' families:

1. Full-time job
2. Part-time job: morning or afternoon

EXPERIMENT: OVERVIEW

1. **Sample:** 500 Jordanian employers

EXPERIMENT: OVERVIEW

1. **Sample:** 500 Jordanian employers
2. **Outcome:** Employers' employment decisions of women (21 per employer)

EXPERIMENT: OVERVIEW

1. **Sample:** 500 Jordanian employers
2. **Outcome:** Employers' employment decisions of women (21 per employer)
3. **Within-subject treatment:** Woman works full-time/part-time morning/afternoon

EXPERIMENT: HIRING SET-UP

1. **Recruitment:** JPAL recruitment drive for employers hiring (unmarried) women

EXPERIMENT: HIRING SET-UP

1. **Recruitment:** JPAL recruitment drive for employers hiring (unmarried) women
2. **Incentives:** Employers receive salary subsidies for at least one month

EXPERIMENT: HIRING SET-UP

1. **Recruitment:** JPAL recruitment drive for employers hiring (unmarried) women
2. **Incentives:** Employers receive salary subsidies for at least one month
 - ▶ **Condition:** JPAL sets workers' wages, work schedules, placebo work conditions

EXPERIMENT: HIRING SET-UP

1. **Recruitment:** JPAL recruitment drive for employers hiring (unmarried) women
2. **Incentives:** Employers receive salary subsidies for at least one month
 - ▶ **Condition:** JPAL sets workers' wages, work schedules, placebo work conditions
3. **Employers' hiring decisions:**

EXPERIMENT: HIRING SET-UP

1. **Recruitment:** JPAL recruitment drive for employers hiring (unmarried) women
2. **Incentives:** Employers receive salary subsidies for at least one month
 - ▶ **Condition:** JPAL sets workers' wages, work schedules, placebo work conditions
3. **Employers' hiring decisions:**
 - ▶ 21 resumes per employer: 7 unmarried/7 married wo/7 married w children

EXPERIMENT: HIRING SET-UP

1. **Recruitment:** JPAL recruitment drive for employers hiring (unmarried) women
2. **Incentives:** Employers receive salary subsidies for at least one month
 - ▶ **Condition:** JPAL sets workers' wages, work schedules, placebo work conditions
3. **Employers' hiring decisions:**
 - ▶ 21 resumes per employer: 7 unmarried/7 married wo/7 married w children
 - ▶ List women's marital/parental status, husband's income/placebo characteristics

EXPERIMENT: HIRING SET-UP

1. **Recruitment:** JPAL recruitment drive for employers hiring (unmarried) women
2. **Incentives:** Employers receive salary subsidies for at least one month
 - ▶ **Condition:** JPAL sets workers' wages, work schedules, placebo work conditions
3. **Employers' hiring decisions:**
 - ▶ 21 resumes per employer: 7 unmarried/7 married wo/7 married w children
 - ▶ List women's marital/parental status, husband's income/placebo characteristics
 - ▶ For each, employers indicate whether willing to hire the woman

EXPERIMENT: HIRING SET-UP

1. **Recruitment:** JPAL recruitment drive for employers hiring (unmarried) women
2. **Incentives:** Employers receive salary subsidies for at least one month
 - ▶ **Condition:** JPAL sets workers' wages, work schedules, placebo work conditions
3. **Employers' hiring decisions:**
 - ▶ 21 resumes per employer: 7 unmarried/7 married wo/7 married w children
 - ▶ List women's marital/parental status, husband's income/placebo characteristics
 - ▶ For each, employers indicate whether willing to hire the woman
 - ▶ 1 choice per employer randomly implemented

EMPLOYERS' CONCERNS FOR HUSBANDS/CHILDREN

- ▶ Wife's work schedule: Wife works full-time, mornings or afternoons

EMPLOYERS' CONCERNS FOR HUSBANDS/CHILDREN

- ▶ **Wife's work schedule:** Wife works full-time, mornings or afternoons
 - ▶ Employers know job was advertised as full-time

EMPLOYERS' CONCERNS FOR HUSBANDS/CHILDREN

- ▶ **Wife's work schedule:** Wife works full-time, mornings or afternoons
 - ▶ Employers know job was advertised as full-time
 - ▶ Surprise work schedule cannot affect selection

EMPLOYERS' CONCERNS FOR HUSBANDS/CHILDREN

- ▶ **Wife's work schedule:** Wife works full-time, mornings or afternoons
 - ▶ Employers know job was advertised as full-time
 - ▶ Surprise work schedule cannot affect selection
 - ▶ Control for productivity beliefs

EMPLOYERS' CONCERNS FOR HUSBANDS/CHILDREN

- ▶ **Wife's work schedule:** Wife works full-time, mornings or afternoons
 - ▶ Employers know job was advertised as full-time
 - ▶ Surprise work schedule cannot affect selection
 - ▶ Control for productivity beliefs
- ▶ **Hypothesis:** Same woman hired more mornings, especially if married/w children

EMPLOYERS' CONCERNS FOR HUSBANDS/CHILDREN

- ▶ **Wife's work schedule:** Wife works full-time, mornings or afternoons
 - ▶ Employers know job was advertised as full-time
 - ▶ Surprise work schedule cannot affect selection
 - ▶ Control for productivity beliefs
- ▶ **Hypothesis:** Same woman hired more mornings, especially if married/w children
 - ▶ **Control test 1:** Hiring of men

EMPLOYERS' CONCERNS FOR HUSBANDS/CHILDREN

- ▶ **Wife's work schedule:** Wife works full-time, mornings or afternoons
 - ▶ Employers know job was advertised as full-time
 - ▶ Surprise work schedule cannot affect selection
 - ▶ Control for productivity beliefs
- ▶ **Hypothesis:** Same woman hired more mornings, especially if married/w children
 - ▶ **Control test 1:** Hiring of men
 - ▶ **Control test 2:** Similar effects for JPAL training opportunity
 - Results not due to productivity concerns

MECHANISMS: NOT CONCERNS FOR HUSBANDS, BUT...

1. Norms? What if it's just norm enforcement?

MECHANISMS: NOT CONCERNS FOR HUSBANDS, BUT...

1. **Norms?** What if it's just norm enforcement?
2. **Wives?** What if employers protect the wife from conflict/violence?

MECHANISMS: NOT CONCERNS FOR HUSBANDS, BUT...

1. **Norms?** What if it's just norm enforcement?
 2. **Wives?** What if employers protect the wife from conflict/violence?
- Heterogeneity by other-regarding preferences towards husbands/wives/children

THE BROTHERHOOD OF THE TRAVELING PANTS: SUMMARY

1. **Motivation:** Female employment in Jordan
 1. Low female labor force participation
 2. Female labor perceived to harm husbands and children
 3. Employers concerned for welfare of husbands and children
